

Have You Ever Thought About Owning a Processing Facility?

CCS recently hosted a webinar with Processing Facility Expert, Keith DeHaan. If you've ever thought about owning a processing facility, this webinar will be very beneficial for you. You can find a recorded version of this on Central Confinement Service's YouTube Channel or read the recap below!

Important Points from the Webinar:

- Ask yourself two questions to get started: Do you have enough funding/capital? Is there a market for your facility?
- A Feasibility Study and Business Plan are extremely important - What's the difference between the two?
- There are various types of ways to operate your facility. Will you offer custom slaughter? Will you sell any cuts retail?
- Steps in the process of constructing a facility include: Permitting, Site Selection, Design, Engineering, and Construction Management.
- There are numerous approaches to leadership and labor management. A good leader is essential.
- Dr. Keith DeHaan's Experiences With Processing Facilities: The Wins and The Losses
